CAREER OBJECTIVES

Junior ASP.NET Developer and final-year Computer Science student with 1+ year of hands-on experience in building scalable web applications using ASP.NET Core MVC, Web API, and Entity Framework Core. Skilled in SQL Server, authentication (Identity & JWT), and Clean Architecture. Passionate about developing secure, maintainable enterprise solutions and eager to contribute to dynamic software teams

EDUCATION

Bachelor of Computer Science, Faculty of Computers and AI, Beni Suef University
Major: Information Systems Department

GPA: 3.3 (Very Good)

2022 – 2026

EXPERIENCE & INTERNSHIPS

Freelance ASP.NET Developer Remote

May 2024 – Present

Remote - Self-employed

- I have collaborated with numerous clients to create web applications utilizing ASP.NET Core MVC and Web API.
- Delivered features such as user authentication, product listing, booking systems, and admin dashboards.
 - Led client communication, reducing requirement clarification time by 25% and improving project delivery efficiency.
 - Managed the full software development lifecycle from planning and development to deployment.

ASP.NET Back-End Developer Intern

Cairo, Egypt

May 2024 – Nov 2024

New Horizon Cairo (NHC), Digital Egypt Pioneers Initiative (DEPI),
Internship focusing on back-end development.

- Obtained hands-on experience in building scalable web applications using ASP.NET Core MVC and .NET Core Web API
- Proficient in MS SQL Server for database design, development, and optimization.
- Improved strong front-end skills using HTML5, CSS3, JavaScript, jQuery, and AJAX

ASP.NET Developer Intern

Remote

Aug 2024 – Sep 2024

Remote - Information Technology Institute (ITI)
ASP.NET training program

- Launched scalable ASP.NET Core MVC and Web API solutions serving 1,000+ users with full CRUD functionality
- Integrated Redis caching to enhance system performance.
- Applied RESTful API design principles and optimized SQL queries for better database performance.

CIB Intern

Cairo, Egypt

Jul 2024 – Aug 2024

Commercial International Bank (CIB)
Internship in a banking environment

- Gained exposure to enterprise systems and digital operations within a leading financial institution.
- Enhanced professional soft skills including teamwork, communication, and attention to details.

Flask Developer Intern

Remote

Aug 2023 – Sep 2023

Remote - Information Technology Institute (ITI)

- Worked with Python Flask, following MVC patterns and RESTful API design
- Worked with SQL databases, user authentication, and template rendering
- Gained foundation in Back-End development, reusable code structure, and HTTP workflows.

PROJECTS

Full E-commerce Platform – Clean Architecture

Jul 2025 – Present

Fully featured e-commerce website.

ASP.NET Core 8.0 MVC & Web API, EF Core 8.0, SQL Server, Identity, Bootstrap 5.

- Designed and enhanced a scalable, enterprise-grade e-commerce platform using Clean Architecture principles (Domain, Application, Infrastructure, Presentation).
- Applied secure authentication and role-based authorization with ASP.NET Core Identity (Roles & Claims).
- Built core modules: product catalog, shopping cart, order processing, Wishlist, Payments, Discounts, Shipping management, and admin dashboard.
- Applied SOLID principles, Unit of Work, Repository, and DTO Patterns to ensure maintainability and scalability.

Blog Platform – Dynamic Content Management

April 2025 – Present

Developing a comprehensive blogging platform

- Building a dynamic blogging platform with full authentication and role-based access control.
- Structured scalable database models for Posts, Categories, Users, and Comments using EF Core.
- Enabled users to register, log in, comment, and browse categorized posts.

Book Verse – Book Suggestion Platform API

Mar 2025 – May 2025

Book suggestion platform with user engagement features.

- Improved a RESTful API for a book recommendation system with Admin and User roles.
- Developed JWT authentication & role-based authorization.
- Added SMTP-based password reset for secure account recovery.
- Configured front-end mockups using Figma to streamline user experience.

CozyCorner – E-commerce Platform

Sep 2024 – Oct 2024

Fully featured e-commerce website for selling all types of furniture

- Built a full-featured furniture e-commerce platform with user authentication, product browsing, and admin dashboard for managing products and categories.
- Implemented Redis-based caching to improve response time and scalability.
- Developed secure login/registration workflow with Identity and email-based approval system.
- Collaborated in a team using Git version control to manage codebase efficiently.

SKILLS

Back-End: C#, ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core (Code-First), LINQ, ASP.NET Identity, JWT Authentication, RESTful API Design, Clean Architecture, SOLID Principles, Dependency Injection (DI), OOP, Data Structures & Algorithms

Front-End: HTML5, CSS3, JavaScript, jQuery, Bootstrap 5, Ajax

Databases & Tools: Microsoft SQL Server 2022, Redis (Caching), Postman, Swagger, Git, GitHub, Visual Studio 2022, VS Code

Languages

Arabic – Native

English – Intermediate (B1) - Strong technical reading and communication skills in English.

Extracurricular Activities

Member, Enactus Beni-Suief, Project Management Committee

Oct 2024 – April 2025

- Actively participated in the PM committee to lead and track the progress of multiple social entrepreneurship projects.
- Collaborated with cross-functional teams (tech, marketing, business) to ensure timely delivery and impact-driven results.
- Contributed to task delegation, timeline planning, and weekly team performance evaluation.
- Obtained experience in project lifecycle management, teamwork, and leadership within a dynamic student-led organization.

Familiar with

- Figma (UI Wireframing & Prototyping)
- UX/UI Concepts
